Left Turn Calming Speed Bumps

NYC's #1 Choice for Left Turn Calming Solutions!...
with more cities being added everyday!

VISION ZERO NETWORK

TreeTop Products is a Proud Sponsor of Vision Zero Network:
Working Toward a Safer Future!

TORONTO

PORTLAND

#1 Choice in Safety!

**DOTs Across North America Prefer TreeTop Products'
Premium Speed Bump for Their Left Turn Calming Solutions**
See our checklist below for the advantages of choosing TreeTop Products solution:

Two rows of hardware ensure bumps remain in-place and in-tact

Non-fading, UV-resistant with molded-in color designed to retain bright colors in all weather conditions

No fraying, chipping paint or sheeting unlike competitor products

Longer and thicker hardware than competitors. We proactively made this quality improvement after receiving feedback from the pilot cities.

Textured non-slip surface is safer for pedestrians and cyclists

They're rugged and designed to be run over. Nothing to knock down (unlike costly bollard posts requiring repairs numerous times a year).

High visibility cat eye reflectors on both sides

Flexible recycled rubber conforms naturally to the ground

Low-maintenance, lower priced than competitors, and available immediately in multiple sizes

We have an industry-leading 15-year warranty against breakage that stands up to any road traffic

Left Turn Calming Kits

Proven to save lives as part of the Vision Zero initiative, TreeTop kits include everything you need to install right away.

Basic Hardened Centerline Kit

- Includes one 19.5' or 23.5' speed bump to harden the centerline and one 6' speed bump to extend into the intersection
- Use when a one-way or two-way road meets a two-way road

Complete Hardened Centerline Kit

- Includes one 19.5' or 23.5' speed bump to harden the centerline and one 6' speed bump to extend into the intersection: two speed bumps form a wedge for daylighting applications
- Use when a one-way or two-way road meets a two-way road

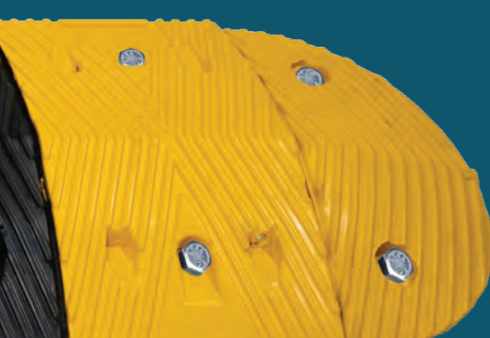

Left Turn Wedge Kit

- Daylighting applications include one 6' speed bump and one 10' speed bump forming a wedge to widen left-hand turns, giving more visibility to pedestrians
- Use when a one-way or two-way road meets a one-way road

Bike Channelization Kit

- Includes two 6' speed bumps and one 10' speed bump for installation adjacent to a protected bike lane
- Used in multiple road configurations

Includes **FREE** Hardware for Asphalt or Concrete Installation

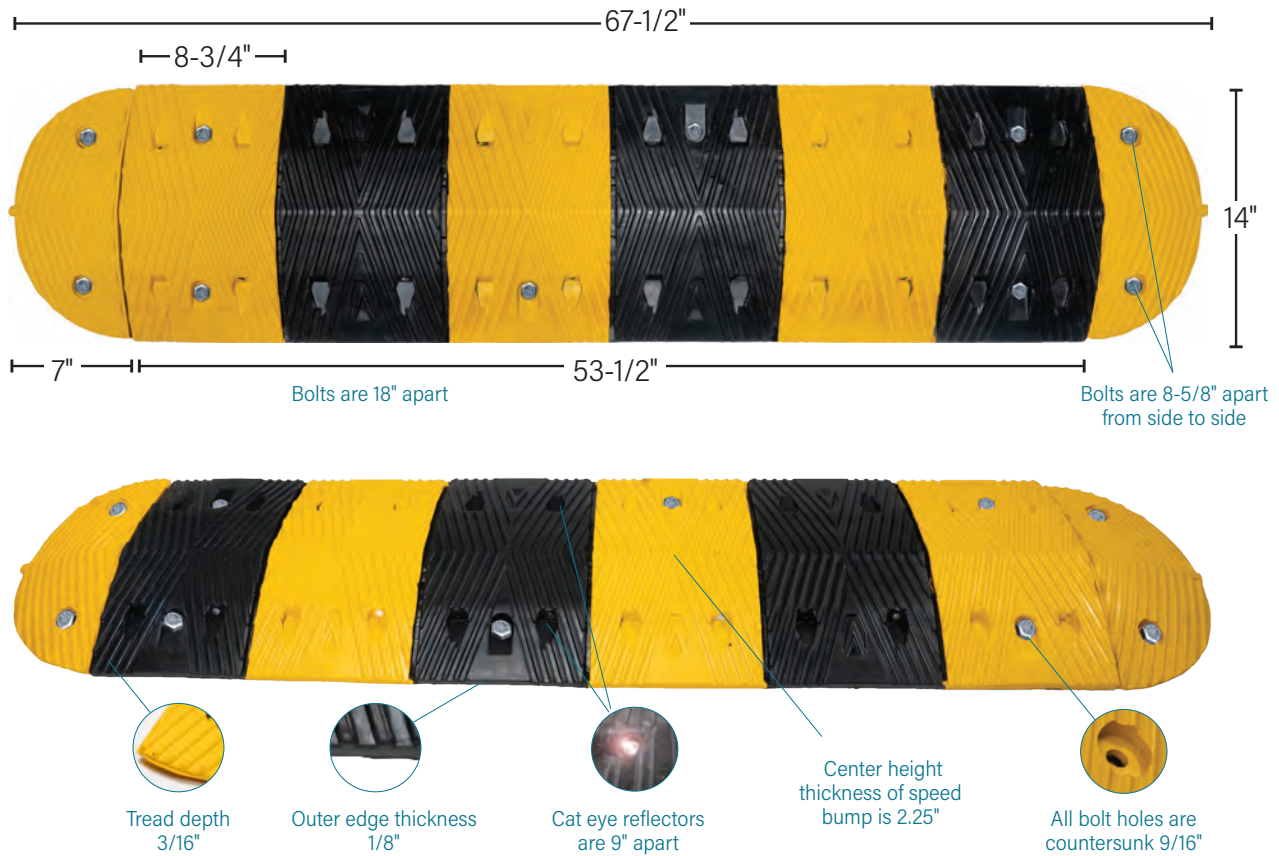

Steel Connecting Rods Ensure Tight Fit When Joining Sections
